EDUCATION

Expected in
Dec 2026

Bachlors Of Science : Software Engineering BUIEMS, Quetta, Pakistan

PROJECTS

- **Crafty Crust (E-commerce Website)** Developed a fully functional e-commerce website for a pizza business using HTML, CSS (Bootstrap), JavaScript, PHP, and MySQL. Integrated features like product listings, cart functionality, and secure checkout to enhance user experience.
- **PakPet (Pet Adoption Website)** Created a user-friendly platform for pet adoption in Pakistan using HTML, CSS (Bootstrap), JavaScript, PHP, and SQL. The website enables users to browse, filter, and adopt pets while promoting responsible pet ownership.
- **Data Analysis Dashboard (Streamlit)** Built an interactive data analysis dashboard using Streamlit for visualizing and analyzing datasets. The project involved data processing, visualization, and creating a user-friendly interface for non-technical users to explore trends and insights.
- **Logo Design for UAFA** Created a modern and professional logo for UAFA using Adobe Illustrator, reflecting the organization's mission and values.

CERTIFICATES

- **DigiSkills:** WordPress, Graphic Designing
- **Navttc:** Blockchain
- **Meta:** Front-End Development, HTML and CSS in depth, Version Control, JavaScript
- **Google:** Linux and SQL
- **Google:** Networks and Network Security
- **Google:** Automate Cybersecurity Tasks with Python
